

2017-2018

Art City Elementary
School Community Council

Welcome to School Community Council

You are invited to participate in
School Community Council.

This is a wonderful program that allows parents and school employees to work together to improve our school. Each year our school is provided funds from Utah's Trustlands. These funds allow our school to create programs to enhance the learning and growth of each student. Come participate in our council and help us decide how to allocate these funds to best meet the needs of Art City's students.
